Let's Get Creative!

Easter Egg Lightning Bug

- 1** Separate top and bottom of Easter egg.
- 2** Glue tea light (flame first) into the longer half. ****Do not glue 2 halves together; you want to be able to turn the light on and off.**
- 3** Close egg and attach googly eyes with hot glue.
- 4** Cut 1st pipe cleaner and attach as antennae with hot glue on the top of the head piece.
- 5** Cut 2nd pipe cleaner and attach as legs with hot glue along the bottom of the body.
- 6** String beads onto 3rd pipe cleaner and then twist ends together to form wings. Attach to the back of the body with hot glue.
- 7** Draw a smile and body details with a black marker.
