

## What you will need

- Pine Cone
- Black Felt
- White Felt
- 2 Googly Eyes
- Scissors
- GLue

## Let's Get Creative!

# Pine Cone Bat

- 1** Using your scissors, cut two triangle shapes out of white felt (teeth) and the other two larger shapes out of black felt (ears and wings).
- 2** On the bottom of the pinecone, where the petals are less separated, glue the two eyes. Glue the two white felt teeth beneath the eyes.
- 3** Stick the ears into open petals at the top of the pinecone and glue in place. Do the same with the wings on the sides.
